

Planning Sheet for Parents

To develop the best possible program, we need your assistance and knowledge of your child. Below are some questions for you to think about in preparation for our student planning meeting.

We look forward to working with you in the upcoming student planning meeting. ☺

1. What do you feel are the strengths of your child? (in school, at home and in the community)
2. What words or phrases might describe your child?
3. How do you think your child learns best? What kind of situation makes learning more effective?
4. Is there any medical information that the team needs to know to better help your child at school? (eg. requires glasses, hearing difficulties, fatigues easily, can be impulsive, can sometimes have difficulty staying on task, or sometimes can become easily upset, irregular sleep patterns, allergies, medications)
5. What do you feel are your child's needs or where your child may need more support?
6. What are your dreams for your child, and what does your child want to do when he/she leaves school?
7. What do you want your child to accomplish in this school year or for the remaining part of this year?

Please feel comfortable in letting us know during the meeting what you think is best for your child. Your ideas will be respected, valued and written into the learning plan.

Thank you ahead of time for attending this valuable planning time for your child. We hope to accelerate learning through sharing everyone's ideas. ☺
