

Special Education: Functional Behaviour Assessment

Virtual Workshops

The First Nations Education Steering Committee and First Nations Schools Association are offering a number of professional development workshops designed specifically for First Nation schools' staff in British Columbia. For all other SEP related professional development, please check the events page <http://www.fnsa.ca/upcoming-events> .

A Functional Behaviour Assessment (FBA) is an approach to figuring out why a student acts a certain way. If schools and families can understand what's causing a behavior, they can find ways to change it.

During this workshop participants will learn the steps in the FBA process of gathering and analyzing information about a student's behavior in order to determine the purpose of the behaviour. This session will be followed up in October with Developing a Behaviour Intervention Plan (BIP).

Registration

Sept. 29, 2:00 p.m. - 4:00 p.m.

Functional Behaviour Assessment Workshop

[REGISTER](#)

After registering, you will receive a confirmation email containing information about how to join the Zoom meeting.
